The Usborne Virtual Book Fair is Coming!

May 10th-14th

Onslow Elementary will be running a virtual book fair this year! Usborne books are beautifully written, quality children's books for 0-14 years old. There's everything from touchy-feely books to graphic novels and puzzles, to wipe-clean key skills books.

You can browse books and complete an order form here: <https://mquinn85.wixsite.com/usborne/>

In addition, there is a bookfair group on Facebook - there will be features on various top-selling books and series and our Usborne consultant, Meghan, will be there to answer questions and help you select books your children will love - she can provide the personal customer service she'd bring to an 'in person' fair. Here's the link to the group

- <https://www.facebook.com/groups/397100644595845>

Your purchases will earn 25% in free books for our library!

All books are subject to 5% tax and 10% shipping.

Did you know that you can find books about how to draw animals? Here is an example to try.

- 1) Draw a large petal shape.
- 2) a petal-shaped head and 2 back flippers
- 3) Draw two front flippers
- 4) Add a large hexagon on the shell, and a small hexagon inside the large hexagon
- 5) add an eye and a mouth, spots on the flippers, and lots of lines on the shell!

What did your final product look like?

You can find further drawing instructions at our Virtual Usborne Book fair in the book Step-by-Step Drawing Animals"

Did you know?

"More whale dung would cool the planet! Whales eat deep underwater, where they hunt animals such as squid or krill - but they can only excrete their dung on the surface. And that's a good thing for the planet! If we made the ocean safer for whales, there would be more of them - and more whale dung. The number of phytoplankton would jump, which would mean less carbon in the atmosphere and a cooler Earth! Read further about this neat fact, and 99 other planet saving facts in "100 Things to know about saving the planet" This book can be found at our Virtual Usborne Book fair!

Looking forward to hearing from you.
