

Meet the Teacher

Name: Sofia Ferreira

My favorites:

- Animal : Owls
- Color: Blue
- Food: Chocolate and Coffee
- Book: Chicka Chika Boom Boom
- Hobbies: Crafts, hiking, paddling
- Most of all, I love teaching and learning!

All About Me

Hi, I am Miss Ferreira. I have been teaching at Onslow school for the last 10 years. Most of that time teaching K4 and K5. So many of you may already know me. I live in the Ottawa Valley with my husband, 2 beautiful daughters and my 2 chocolate labs. I love the Ottawa Valley and Pontiac area because there are so many opportunities to be out in nature. I love going for hikes and paddling on the water in my kayak or paddle board.

Although I have taught many grades, Kindergarten has always been my favorite. My favorite thing about teaching Kindergarten is the excitement the students have about starting school and learning. Kindergarten students are curious, imaginative and enthusiastic. In Kindergarten we learn through play. This means that in my class we do a lot of learning centres. Math centres and language centres are small activities or games that small groups will work together on. Centres allows students to rotate through all the different activities allowing them to practice their skills in different ways. It also allows them to learn how to work independently, which is one of the most important skills they learn in my class.

Looking forward to seeing your children grow and learn this year!
